Committees of the Fourteenth International Seaweed Symposium ..... xi
Warning to *Laminaria*, by Ralph Lewin ..... xii
Acknowledgements ..... xiii
Marinalg International Awards ..... xv
Student Paper Awards ..... xvii
List of participants ..... xix
Addresses
B. Santelices, President, International Seaweed Association ..... xliv
J. Y. Floc'h, Chairman, National Organizing Committee, XIVth International Seaweed Symposium ..... xlv
J. C. Bodere, President Université de Bretagne Occidentale ..... xlvii

**1. Plenary lectures**

Environmental and internal control of seasonal growth in seaweed
by K. Lüning ..... 1
Present and future needs for algae and algal products
by A. Jensen ..... 15
Importance of basic research in applied phycology
by F. Magne ..... 25

**2. Taxonomy and general biology**

Intraspecific sterility barrier confirms that introduction of *Sphaerotrichia divaricata* (Phaeophyceae, Chordariales) into the Mediterranean was from Japan
by A. F. Peters, H. Kawai and I. Novaczek ..... 31
Virus infections in three marine brown algae: *Feldmannia irregularis, F. simplex*, and *Ectocarpus siliculosus*
by D. G. Müller and K. Frenzer ..... 37
Gelidiaceae (Rhodophyta) in Bahia de Banderas, Western Pacific, México
by E. Serviere-Zaragoza, D. Rodríguez-Vargas and J. González-González ..... 45
Preliminary comments on a redescription of *Pseudolithophyllum fuegianum* and *Titanoderma conspectum* (Rhodophyta, Corallinales) in Tierra del Fuego, Argentina
by M. L. Mendoza and S. Molina ..... 51
Mass distribution in the fronds of *Macrocystis pyrifera* from New Zealand and California
by M. A. Nyman, M. T. Brown, M. Neushul, B. W. W. Harger and J. A. Keogh ..... 57
An examination of the population genetics of *Laminaria* and other brown algae in the Laminariales using starch gel electrophoresis
by C. D. Neefus, B. P. Allen, H. P. Baldwin, A. C. Mathieson, R. T. Eckert, C. Yarish and M. A. Miller ..... 67
Numerical taxonomy of some taxa of the genus *Fucus* in the Iberian Península
by I. Pérez-Ruzafa, T. Gallardo and R. Gómez-Cancio ..... 81

Morphological and taxonomic studies on some little-known species of *Gracilaria* (Gracilariales: Rhodophyta) from Venezuela. 1. *G. damaecornis*
by E. K. Ganesan ..... 91
Vegetative and reproductive morphology of *Herpochondria corallinae* (Martens) Falkenberg and *H. elegans* (Okamura) Itono (Ceramiaceae, Rhodophyta) from Korea
by Y.-S. Keum and I. K. Lee ..... 97
New perspectives in the taxonomy of the Gigartinaceae (Gigartinales, Rhodophyta)
by M. H. Hommersand, M. D. Guiry, S. Fredericq and G. L. Leister ..... 105
Vertical distribution of coralline algae in the rocky intertidal of northern Chile
by I. Meneses C. ..... 121
Differences in response between haploid and diploid isomorphic phases of *Gracilaria verrucosa* (Rhodophyta: Gigartinales) exposed to artificial environmental conditions
by C. Destombe, J. Godin, M. Nocher, S. Richerd and M. Valero ..... 131
Differential reattachment capacity of isomorphic life history phases of *Gelidium sesquipedale*
by J. A. Juanes and A. Puente ..... 139
Morphogenetic effects of daylength in *Schottera nicaeensis*
by C. Perrone and G. P. Felicini ..... 145
The systematics of *Porphyra:* character evolution in closely related species
by S. C. Lindstrom and K. M. Cole ..... 151
Assessment of allozyme variation among New Zealand populations of *Gracilaria chilensis* (Gracilariales, Rhodophyta) using starch-gel electrophoresis
by S. Intasuwan, M. E. Gordon, C. H. Daugherty and G. C. Lindsay ..... 159
Microtubule organization in the apical cell of *Sphacelaria* (Phaeophyceae) and its related protoplast
by A. M. Rusig, H. Le Guyader and G. Ducreux ..... 167

**3. Ecology**

Allocation of blade surface to reproduction in *Laminaria longicruris* of Long Island Sound (USA)
by M. S. Van Patten and C. Yarish ..... 173
A methodology for parameter estimation in seaweed productivity modelling
by P. Duarte and J. G. Ferreira ..... 183
Population studies on a South African carrageenophyte: *Iridaea capensis* (Gigartinaceae, Rhodophyta)
by J. J. Bolton and M. A. P. Joska ..... 191
Characterization of tidal pool algae in the Mexican tropical Pacific coast
by H. León, D. Fragoso, D. León, C. Candelaria, E. Serviere and J. González-González . 197
Size distribution, growth and production of *Sargassum thunbergii* in an intertidal zone of Padori, west coast of Korea
by C.-H. Koh, Y. Kim and S.-G. Kang ..... 207
Population studies of *Laminaria hyperborea* from its northern range of distribution in Norway
by K. Sjøtun, S. Fredriksen, T. E. Lein, J. Rueness and K. Sivertsen ..... 215
Life history and reproductive potential of the agarophyte *Gelidium robustum* in California
by R. A. Melo and M. Neushul ..... 223
A comparison between two populations of *Lessonia trabeculata* (Phaeophyta: Laminariales) microscopic stages
by M. E. Edding, E. Fonck, P. Orrego, M. Venegas and J. Macchiavello ..... 231

Changes and degradation of seaweed stands in the northern Adriatic
by I. M. Munda ..... 239
Resource biology of *Pterocladia capillacea* (Gelidiales, Rhodophyta) populations in Brazil
by E. C. Oliveira and F. A. S. Berchez ..... 255

**4. Resources**

'Hard' data for matrix modelling of *Laminaria digitata* (Laminariales, Phaeophyta) populations
by A. R. O. Chapman ..... 263
Plucking or cutting *Gelidium sesquipedale?* A demographic simulation of harvest impact using a population projection matrix model
by R. Santos ..... 269
History of kelp beds (*Macrocystis*) in Orange and San Diego Counties, California
by W. J. North, D. E. James and L. G. Jones ..... 277
The role of herbivores in the collapse of the *Gracilaria* resource at Saldanha Bay, South Africa
by R. J. Anderson, G. J. Levitt, D. W. Keats and R. H. Simons ..... 285
Recent changes in the seaweed community of western Prince Edward Island: Implications for the seaweed industry
by G. J. Sharp, C. Têtu, R. Semple, D. Jones ..... 291
Spatial distribution and quantification of *Fucus* species and *Ascophyllum nodosum* beds in intertidal zones using spot imagery
by B. Guillaumont, L. Callens and P. Dion ..... 297
Evaluation of remote sensing techniques for monitoring giant kelp populations
by L. E. Deysher ..... 307
Limiting factors in optimizing seaweed yield in Chile
by J. A. Vásquez and R. Westermeier ..... 313
Changes in the population structure of *Ascophyllum nodosum* (L.) Le Jolis due to mechanical harvesting
by P. O. Ang, G. J. Sharp and R. E. Semple ..... 321

**5. Cultivation, tissue culture**

Exudates from *Gracilaria chilensis* stimulate settlement of epiphytic ulvoids
by B. Santelices and D. Varela ..... 327
Recent status of *Gracilaria* cultivation in Taiwan
by T. Ajisaka and Y.-M. Chiang ..... 335
Some aspects of the growth of *Gracilaria tenuistipitata* in pond culture
by C. Wu, R. Li, G. Lin, Z. Wen, L. Dong, J. Zhang and X. Huang ..... 339
Interaction mechanisms between *Gracilaria chilensis* (Rhodophyta) and epiphytes
by A. H. Buschmann and P. Gómez ..... 345
Farming *Eucheuma* in Zanzibar, Tanzania
by T. Lirasan and P. Twide ..... 353
Environmental variation and large-scale *Gracilaria* production
by A. Pizarro and B. Santelices ..... 357
Aspects of the farming and processing of *Kappaphycus* and *Eucheuma* in Indonesia
by D. M. Luxton ..... 365
A *Eucheuma* (Solieriaceae, Rhodophyta) cultivation test on the south-west coast of Madagascar
by J. Mollion and J.-P. Braud ..... 373

Clonal propagation of *Eucheuma denticulatum* and *Kappaphycus alvarezii* for Philippine seaweed farms
by C. J. Dawes, G. C. Trono Jr. and A. O. Lluisma ..... 379
Regeneration from callus of *Undaria pinnatifida* (Harvey) Suringar (Laminariales, Phaeophyta)
by Y. Kawashima and H. Tokuda ..... 385
*Gracilaria conferta* and its epiphytes: (2) Interrelationship between the red seaweed and *Ulva* cf. *lactuca*
by E. Svirski, S. Beer and M. Friedlander ..... 391
Life cycle of *Porphyra vietnamensis* Tanaka and Pham-Hoang Ho from Thailand
by K. Lewmanomont and O. Chittpoolkusol ..... 397
Apical callus formation in *Solieria filiformis* (Gigartinales, Rhodophyta) cultured in tanks
by D. R. Robledo and G. García-Reina ..... 401
Development of callus-like structures and plant regeneration in thallus segments of *Grateloupia filiformis* Kützing (Rhodophyta)
by N. S. Yokoya, S. M. P. B. Guimarães and W. Handro ..... 407
Culture of *Hypnea musciformis* (Rhodophyta, Gigartinales) on artificial substrates attached to linear ropes
by F. A. S. Berchez, R. T. L. Pereira and N. F. Kamiya ..... 415
Protoplasts of *Gelidium robustum* (Rhodophyta)
by D. A. Coury, T. Naganuma, M. Polne-Fuller and A. Gibor ..... 421
Regeneration of whole plants from *Gracilaria asiatica* Chang et Xia protoplasts (Gracilariaceae, Rhodophyta)
by X.-H. Yan and S.-J. Wang ..... 429

**6. Physiology**

Cell-cell-recognition during fertilization in *Ectocarpus siliculosus* (Phaeophyceae)
by C. E. Schmid ..... 437
Physiological comparison between gametophytes and tetrasporophytes of *Gelidium canariensis* (Gelidiaceae: Rhodophyta)
by P. A. Sosa, M. Jiménez del Río and G. García-Reina ..... 445
The use of acetic acid as a source of carbon by cultured *Chondrus crispus* (Gigartinales, Rhodophyta) Stackhouse
by M. A. Amat and J.-P. Braud ..... 451
The effect of water flow on photosynthetic processes of the alga *Ulva lactuca* L.
by E. W. Koch ..... 457
A comparative analysis of wild and laboratory grown *Laminaria abyssalis* (Phaeophyta) using modulated fluorescence
by M. A. Rodrigues, Y. Yoneshigue-Valentin and C. P. Dos Santos ..... 463
Light quality effects on subsequent dark $^{14}CO_2$-fixation in *Fucus serratus*
by G. Tremblin, P. Jolivet and A. Coudret ..... 471
Response of *Audouinella saviana* (Meneghini) Woelkerling (Nemaliales, Rhodophyta) cultures to monochromatic light
by L. Talarico and A. Cortese ..... 477
The pattern of cell wall adhesive formation by *Fucus* Zygotes
by V. Vreeland, E. Grotkopp, S. Espinosa, D. Quiroz, W. M. Laetsch and J. West ..... 485

Effect of relative water motion on photosynthetic rate of the red alga *Gracilaria conferta*
by Y. Gonen, E. Kimmel and M. Friedlander ..... 493
Enhanced development and differentiation of protoplasts and spores of green and red seaweeds by a *Pterocladia* agar from New Zealand
by M. Polne-Fuller, H. Amano, T. Fujimura, Y. K. Hong, D. A. Coury, I. Sousa-Pinto and A. Gibor ..... 499

**7. Chemical composition**

A further fractionation of agarose
by K. B. Guiseley, F. H. Kirkpatrick, R. B. Provonchee, M. M. Dumais and S. Nochumson ..... 505
Determination of alginate composition by a simple enzymatic assay
by K. Østgaard ..... 513
Phospholipase $A_2$ inhibitors from marine algae
by A. M. S. Mayer, V. J. Paul, W. Fenical, J. N. Norris, M. S. de Carvalho and R. S. Jacobs ..... 521
Influence of mineralisation methods on the determination of the mineral content of the brown seaweed *Undaria pinnatifida* by atomic absorption spectrophotometry
by J. Fleurence and C. Le Cœur ..... 531
Natural occurrence of denatured phycoerythrin during *Porphyra* cultivation
by H. Amano and H. Noda ..... 535
Seasonal variation in the physical properties of agar and biomass of *Gracilaria* sp. (*chorda* type) from Tosa Bay, southern Japan
by A. Chirapart and M. Ohno ..... 541
The use of diterpenoids as chemotaxonomic markers in the genus *Cystoseira*
by R. Valls, L. Piovetti and A. Praud ..... 549
Kinetics and specificity of alginate lyases
by B. Larsen, K. Hoøen and K. Østgaard ..... 557
Gel strength of Ca-limited alginate gels made *in situ*
by K. I. Draget, M. K. Simensen, E. Onsøyen and O. Smidsrød ..... 563
High performance liquid chromatography of biliprotein from *Bangia atropurpurea* 'Conchocelis'
by H.-N. Chou and J.-M. Jeng ..... 571
Mannuronan C-5 Epimerase activity in protoplasts of *Laminaria digitata*
by R. S. Hagen Rødde, K. Østgaard and B. A. Larsen ..... 577
Using elasticity/temperature relationships to characterise gelling carrageenans
by A. Parker ..... 583
Marine algal lectins: new developments
by D. J. Rogers and K. Hori ..... 589
Stable isotope labelling method for studies of saccharide metabolism in *Agardhiella subulata*
by Y. Wu and M. R. Gretz ..... 595
Carrageenan yield and properties of *Eucheuma uncinatum* (Seth. & Gard.) Daw. cultured under natural conditions
by J. A. Zertuche-González, I. Pacheco-Ruiz and I. Soria-Mercado ..... 601
Annual variations of the biochemical composition of *Gelidium latifolium* (Greville) Thuret et Bornet
by A. Mouradi-Givernaud, T. Givernaud, H. Morvan and J. Cosson ..... 607

The yield, physical and chemical properties of agar gel from *Gracilaria* species (Gracilariales, Rhodophyta) of the Kenya coast
by H. A. Oyieke ..... 613
Incorporation of $^{14}C$-radioactivity into lipid classes at different maturity of *Laminaria japonica* Aresch. cultured under natural and partially controlled conditions
by M. Honya, Y. Kashiwabara and K. Nisizawa ..... 621
Seasonal changes in the chemical and gelling characteristics of agar from *Gracilaria verrucosa* collected in Turkey
by M. Yenigül ..... 627
Effect of dark treatment on the starch degradation and agar quality of cultivated *Gracilariopsis lemaneiformis* (Rhodophyta, Gracilariales) from Venezuela
by R. E. Rincones ..... 633

**8. Chemical structure**

A new chemical tool for characterization and partial depolymerization of red algal galactans
by A. I. Usov ..... 641
The chemical structure of the polysaccharide from *Dasyclonium incisum*
by I. J. Miller, R. Falshaw and R. H. Furneaux ..... 647
Biologically active oxylipins from seaweeds
by W. H. Gerwick, P. J. Proteau, D. G. Nagle, M. L. Wise, Z. D. Jiang, M. W. Bernart and M. Hamberg ..... 653
Molecular cut-off values of dialysis membranes for alginate and kappa-carrageenan oligosaccharides
by S. H. Knutsen, S. T. Moe, B. Larsen and H. Grasdalen ..... 667
Purification and properties of tauropine dehydrogenase from a red alga, *Rhodoglossum japonicum*
by M. Sato, M. Takeuchi, N. Kanno, E.Nagahisa and Y. Sato ..... 673

**9. Molecular biology**

Quanhtification and characterization of nuclear genomes in commercial red seaweeds: Gracilariales and Gelidiales
by D. F. Kapraun, J. A. Dutcher and D. W. Freshwater ..... 679
Revision of the kelp family Alariaceae and the taxonomic affinities of *Lessoniopsis* Reinke (Laminariales, Phaeophyta)
by G. W. Saunders and L. D. Druehl ..... 689
Phylogeny of the northeast Pacific brown algal (Phaeophycean) orders as inferred from 18S rRNA gene sequences
by I. H. Tan and L. D. Druehl ..... 699

Subject index ..... 705
Chemical components index ..... 709
Taxonomic index ..... 714
Author index ..... 723

Contents of *Journal of Applied Phycology*, Vol. 5, No. 2 (April 1993) ..... 725
